Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The cancellation of claims 10-12 is acknowledged.

Applicant's arguments are moot in light of the following new grounds of rejection that are necessitated by amendment.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, 8-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Drobot et al. (6801001).

Drobot et al. teaches an optical switch comprising: a gas (col. 4 lines 25-35), wherein said gas has an electron density and said electron density is altered (inherent; col. 4 lines 25-35) to effectuate a change in the path of a light ray (inherent; col. 4 lines 25-35). Thus claim 1 is met.

Drobot et al. teaches wherein the electron density is altered electronically (e.g. Abstract). Thus claim 2 is met.

Drobot et al. teaches further comprising a positive electrode; and a negative electrode. (e.g. Abstract). Thus claim 3 is met.

Drobot et al. teaches said change comprises reflecting said light ray (col. 4 lines 25-35). Thus claim 8 is met.

Drobot et al. teaches said change comprises reflecting said light ray (col. 4 lines 25-35). Thus claim 9 is met.

Allowable Subject Matter

Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art, either alone or in combination, does not disclose or render obvious plurality of ports, and electron density altered by a laser in combination with the rest of claims 4, 7.

It is noted that the corresponding claim is allowable because the unique combination of each and every specific element stated in the corresponding claim.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
